Masterson Method® “Beyond Horse Massage” Hands-on Seminar-Workshop

The Masterson Method® Weekend Seminar-Workshop is the next practical step to take after reading/viewing the **Beyond Horse Massage Book and DVD**.

In this “Hands-on” Weekend Seminar-Workshop, you will learn how to recognize what the horse is telling you through visual and palpable responses that enable you to get deeper releases of tension than the horse would otherwise be unable to release on its own. This is a truly interactive process that results in a change in relationship, and an improvement in movement and performance.

WHAT’S IN IT FOR YOU?

- Improved relationship and communication with your horse.
- Make your horse more relaxed and comfortable.
- Enable your horse to overcome limitations and restrictions that stand in the way of reaching his full potential.

Discover how much the Masterson Method® has to offer you and your horse by experiencing one of our hands-on weekend seminar-workshops for yourself!

Without hesitation, top trainers such as Australian Peter Atkins (eventing) and Brianne Goutal (show jumping) say that their horses have improved in performance after applying The Masterson Method of therapy.

Well known dressage trainer Jane Savoie remarks, *“Without a doubt, Jim’s work is amazing! It is gentle, effective, and strengthens the bond and communication between you and your horse. His method directly complements what I do while training.”*

“To get a better connect to your horse I would highly recommend this class. I think it is great therapy for both horse and rider.”

L. Barnes, Middleburg, FL

“This course helped me better understand the relationship between body parts of a horse and how they can compensate. This course allowed me to help my horses better and keep them healthier, happier, and performing better.”
